

GexCon UK

New Opportunity within GexCon UK

GexCon UK Ltd is a wholly owned subsidiary of GexCon AS of Bergen, Norway.

We are the world leaders in gas dispersion and prediction CFD modelling for onshore and offshore safety studies. We are also leading specialists for process safety analyses / accident investigations and are a leading European research establishment.

Senior CFD engineer

We are seeking an experienced CFD engineer for our UK office in Skelmersdale, Lancashire

The Role:

This position will suit applicants with previous CFD experience, who are currently working in an oil and gas consultancy setting and wish to progress their career through to management level within a global leading company. The ideal candidate will be pro-active, have an enthusiastic attitude and are looking to take on more individual responsibility through direct client interaction. The role will require some or all of the following;

- Project based engineering support to existing clients in the offshore, petrochemical, processing and civil contingency sectors.
- Dispersion and Explosion Modelling using the FLACS & DESC CFD Codes.
- Consultancy using various new engineering based software tools, currently under development by GexCon.
- Travelling to customer meetings both within the UK and internationally.
- Support to our customers who lease or own our software products.
- Training of existing and new users.

Candidates should have:

- A Bachelor degree in Physics, Mathematics or Engineering.
- Experience using the FLACS CFD Code.
- Consultancy / Customer support experience.
- Initiative – the ability to manage and control own workloads.
- Leadership – can demonstrate the ability to lead projects including the management of other CFD engineers and CAD technicians as part of a team.

- Excellent communication, written and interpersonal skills.
- Flexibility to carry out assignments everywhere in the UK and abroad.

Desirable experience:

- Knowledge of the process industry and relevant safety legislation is an key advantage.
- Experience in the use of other CFD codes such as FLUENT, Autoreagas.

Remuneration:

As a Norwegian company GexCon offers excellent conditions for all employees, including attractive salary, team bonuses, pension / life insurance schemes and welfare programmes.

In addition GexCon actively encourages and supports those who wish to continue with further education and personal development.

A positive working environment as part of a successful team providing a healthy work life balance.

Closing date for applications:

12.00pm Monday 16th February 2009
